

Петров Даниил

Задание 1

```
CREATE procedure otpusk_tovara1
    (@prod varchar(100),
    @kolich decimal(9,2))
as
begin
    begin TRan
    if ((SELECT quantity from product_plan where product=@prod) >= @kolich)
        begin
            UPDATE product_plan
            set quantity = quantity - @kolich
            where product=@prod
        END
    ELSE
        begin
            ROLLBACK TRANSACTION
        end
    COMMIT TRANSACTION
end;

EXEC otpusk_tovara1 '22', 10;
```

Задание 2

```
create trigger trg_clear_plan
on product_plan
instead of delete
as
begin
    update product_plan
    set quantity = 0
    where product in (select product from deleted)
end;
```
